

Baja Magnum · 320

Here's a pair of high performance sportboats anyone would want to draw to...Baja's Magnum and 320. The Magnum takes its job very seriously. It's a pure performance machine, with ample power from a variety of potent twin MerCruiser Drive packages. Get ready for action in race-style fiberglass with drop-down cushions and a tough non-skid fiberglass innerliner cockpit floor. Below deck, relax in comfort with a large vee berth, a separate salon/conversation area plus a handy porta-potty. The Baja Magnum allows you to unwind in style with plenty of performance gusto. According to the editors at Powerboat Magazine, the Baja 320 is, "a boat that looks as good as it runs, with a shape that'll get your juices flowing even when it's tied to the dock." There's no doubt when it designed the didn't hold anything back when it designed the futuristic 320. As luxury sportboats go, the 320 has no peers. Speed, styling and a penthouse-like forward cabin with all the amenities is a combination tough to beat on anyone's turf. Maybe you should find out more.
