Price\*: Inboard ..... \$29,500  
Diesel ..... \$38,900

\*as of September, 1975

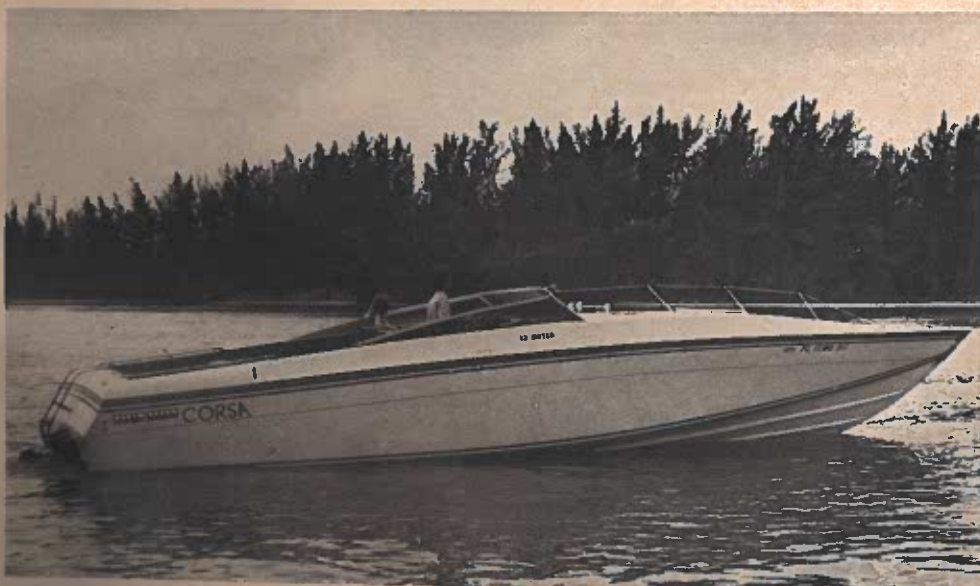

**Manufacturer's comment:**  
Speedy, safe, seaworthy and dependable... the basic hull design is our famous, high-performance deep-V with strongly hand laid-up fiberglass selected for fast patrol boats by the United States Navy. The roomy forward cabin has

V-berths, head, hanging locker and ample storage space. The SF Model features an aft helmsman's seat with passenger lounges forward, ample storage space for underwater gear, etc... and a spacious open cockpit area. Optional tuna tower makes

this high-performance boat a superb fishing machine for the sportsman with safety in mind.

MerCruisers w/MerCruisers  
III Stern Drive  
Price\* (FOB Miami) . \$58,000

\*as of September 1, 1975

**Manufacturer's comment:**  
From the designers of the 40' Corsa "Copper Kettle", American Power Boat Association's 1975 Off-Shore Champion, comes a pleasure boat beyond your dreams. The windswept look of an ocean racer boat hull is enhanced by the lines of this

deck. The cockpit seats the driver forward with controls at hand for running at any speed. Two passengers may ride forward on a double helmsman's seat, that is shockmounted for a smooth ride. Accommodating 4 or 5 more is no problem, a 6'6" bench

seat across the cockpit adds to the "play pen" lounge cushions that cover the motor box. Under the long sleek deck is a full 6'4" headroom, with luxury and comfort all around you. Enclosed shower and sit down head gives complete privacy. Storage is abundant behind teak lou-

vered doors. There is sleeping for 6 with double bunks on each side and a private cabin forward. Performance is unsurpassed for a boat this size. Two 400 h.p. 482 cu. in. MerCruisers are placed neatly with room to spare in the engine room.
