Subject: Kevin Kaczan Scott Stinbring "unleashed" engine build updates

Bob

Looking forward to making more progress on our build. Waiting on the Cam, Valves, retainers, and spring specs that we are purchasing through you. I just like to think about it before making the order.

I would also appreciate your advice and quote on a damper. Scott says the machine shop would like to have them before final assembly on my short block.

Do you have an update on when the heads will arrive?

I have not received the invoice for the pistons and my birthdays not until July :-)

Thanks

Kevin Kaczan
