

Concept. Introducing our new Concept. This striking boat marks a tour de force in design and performance for Wellcraft. In an effort to capture its fire and flash, many have likened it to a sports car for the water.

The look is smooth and racy. We've streamlined the deck in order to make the lines flow freely built in a transom walk-out to the swim platform and added power options up to 340HP to make reaching top speeds a breeze.

The fiberglass-lined cockpit has a snap-in carpet for easy maintenance. There's a molded plex hideaway cabin door that opens into a spacious interior. Complete with convertible settee with V-berth, Plus you have options like a porta-potti, a transom shower and electric cabin sky hatch to make life more convenient.

Take the custom wheel of our Concept and find out what high performance means as only Wellcraft can define it.

SPECIFICATIONS: LOA 23'3" - Beam 8' - Weight 3400 lbs. - Fuel Cap. 65 gals. - Max. HP 340 - Deadrise 17° - Draft 24" (Engines up) 36" (Engines down).
