Key West, FL 33040

Dear John:

It was good to catch up last week.

As discussed, we are looking forward to launching our High Octane Series next fall and Super Boat entertainment will be a cornerstone to the launch. The footage is currently with one of our producers who will make recommendations to us collectively as to how to format and script the creative.

We at The Bigger Picture appreciate your patience. As you know, we had planned to launch earlier but got bogged down with the writers' strike.

Just to give you an idea of our current programs we are currently running Kidtoons, Anime, Faith/Inspirations, Concerts, The San Francisco Opera. We are also working on Live Events as well as 3d and live 3d.

John, we look forward to a long, lucrative relationship with you and Super Boat. By mid next month we'll be able to send you a schedule and creative on our High Octane roll out.

Here's to a great new season.

Best,

Jonathan Dern
